

Virtual Credit Card

The smartest way to manage your subscriptions

[Open.Money](#)

What is a virtual card?

A [virtual card](#) is a unique & digitally generated 16-digit credit card number that lets you pay for all your subscriptions. Your card number is always private, thus reducing fraud risks.

Simplify your SaaS spends

- Earn rewards for every subscription payment
- Real-time visibility for every online purchase
- Automated bookkeeping done right

Open's virtual card comes integrated with an online bank account that helps you manage banking, payments, payouts, offline expenses, and accounting - from ONE place!
